# *The Canadian Drawn Steel Company, Limited*

To The Shareholders:

It is with pleasure that we submit this report on the operations of your Company for the year ending December 31st, 1959, with Balance Sheet, Profit and Loss and Earned Surplus Statements for that period. The report of the Company's auditors, Messrs. McDonald, Currie & Co., is also attached.

As anticipated, our new storage building on Chatham Street provided the necessary space enabling production to be increased for 1959 over the year 1958 by 30%, a very substantial increase in tonnage for one year. It developed, however, that, to increase efficiency by the combining of orders for longer production runs, a larger portion of the new building had to be used for the storing of finished bars than was originally planned. For this reason, further storage space will probably have to be provided by enlarging the new building, before the full capacity of the present processing machines can be utilized. We feel, however, that the present building will suffice for some time unless the volume increases at a rate faster than anticipated.

The increase in tonnage also had the result of increasing the volume of office work to such an extent that the old office on Gerrard Street was quite inadequate. Your Board of Directors, therefore, had no alternative but to renovate the office building on Chatham Street. This was completed and the transfer made early in October. We feel that this new office, a picture of which is shown in this report, is a very attractive one and provides, for the office staff, proper facilities which have been lacking for years. Many compliments have been received on the building, particularly on the provisions made to ensure that visitors are accorded a cordial welcome. We hope that many of you will be able to inspect this new office, of which we are justly proud.

The increase in sales had the pleasing effect of increasing our profit and also our working capital, as shown in the following summary:

	<u>1959</u>	<u>1958</u>	<u>1957</u>
Net Profit available for Dividends.....	\$ 438,844	\$ 308,939	\$ 391,343
Profit per Common Share.....	\$ 2.18	\$ 1.39	\$ 1.89
Working Capital.....	\$1,303,575	\$1,112,823	\$1,148,671

The results for the year 1958 were so adversely affected by the steel strike in Canada that, in order to give a truer picture, we have included comparative figures for the year 1957.

The Cumulative 60c Dividend Participating Preference Shares of no par value, are entitled to a participation in the net profits of the Company over \$150,000 and this participation out of 1959 net profits amounts to 19c per share (10c - 1958, 16c - 1957), which will be paid on April 15th, 1960.

The movement of the office to a location separate from the plant entailed a great deal of work by the office staff and numerous revisions to our systems; through the willing co-operation given, the move was made efficiently and pleasantly.

Your Board of Directors wish to express their appreciation to the office staff and to all the employees of the company who made the large increase in sales possible.

Respectfully submitted on behalf of the Board of Directors.

*Ralph Biggar*

PRESIDENT

February 24th, 1960, Hamilton, Ontario.

# *The Canadian Drawn Steel Company, Limited*

Your Company's new Office Building, the second unit on Chatham Street, provides our staff with more than usual natural lighting and other pleasing and necessary facilities, including air conditioning.

## AUDITORS' REPORT TO THE SHAREHOLDERS

We have examined the Balance Sheet of The Canadian Drawn Steel Company, Limited as at 31st December 1959 and the Statements of Profit and Loss and Earned Surplus for the year ended on that date, and have obtained all the information and explanations we have required. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, and according to the best of our information and the explanations given to us and as shown by the books of the Company, the accompanying Balance Sheet and Statements of Profit and Loss and Earned Surplus are properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Company as at 31st December 1959 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.
